

New icon on main girl nav tab always on:

Previously if user clicks on all the girls with new icon. the new icon on the Main Girls tab will disappear. Now we want it so that the NEW will disappear on the listing thumbnail if the user clicks on the listing, but will always be next to GIRLS even if all has been clicked.

Physical Back button when filter is open Area Category, ethnic should close the filter:  
The is for the back button on Android phones.

ISSUE If user is guided to individual girls page. back button does not work. Here make back button go to all girls page:

If a girls link is shared from fuckadvisor.com. another user clicks on shared link, it opens but then the user clicks on back button. This closes the tab. We want the back button to go to the Main Girls page.

Make the Category filter modal in Main Girls Page look more similar like the current Ethnicity filter:  
Filter names closer to the middle, make the Ethnicity filter texts Larger and Bolder. so both filters look similar

New Nearby Button animation at Home Page. (change is it will be white upon press) everything else stays the same.

Show 26 Girls at Main Girls page. 13 Rows

photo verified (真实照片) + Admin input field:

under the right bottom corner have a diagonal banner in same transparency as age. And add real photo text in following color. This banner is displayed when turned on in Admin page. Add a real switch in admin page for each listing.

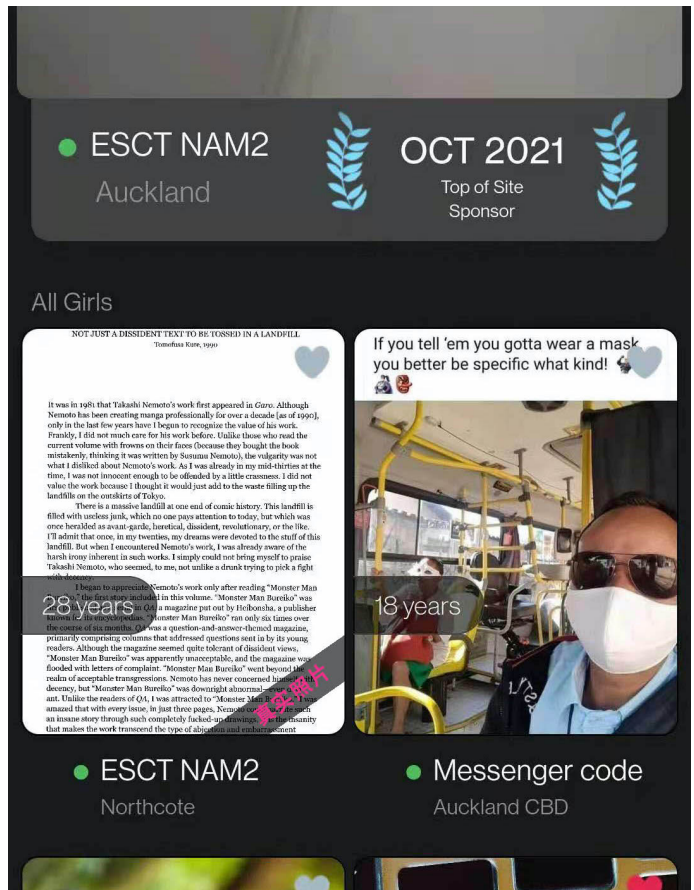

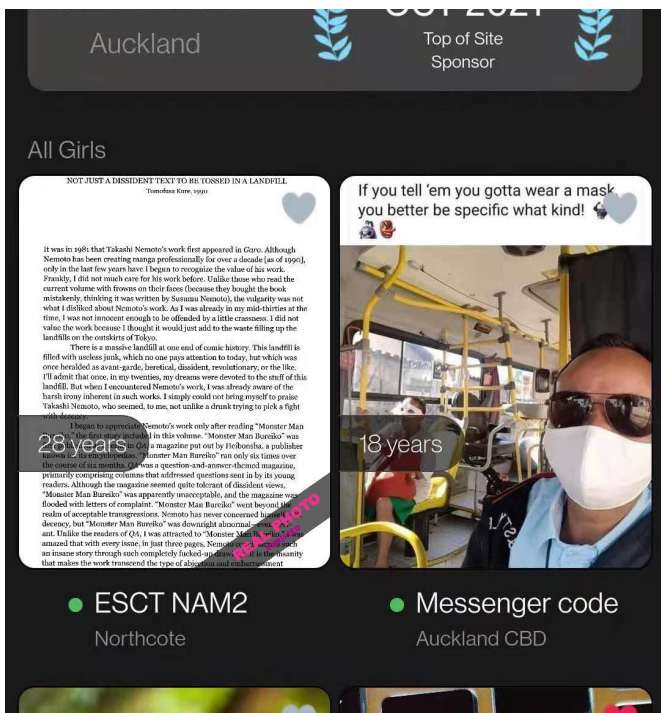

English Version

color: ef308a for REAL

color: b8018b for VERIFIED (Smaller font)

Chinese version

color: ef308a for 真实照片

Larger chat msgs font:

Make the sent and received messages in the Chat feature have larger font size. Same size as inout text field font size

Chats: Contact page black background, white text same as site, new message with highlighted bar in contact list:

The Current contact list page (The first chat contact page, when clicking the chat icon) background is currently white. Please make it the same as the site background i.e. dark. and texts and right arrow white.

New Messages in contact page has text in bold and moves to the top of the contact list, with a lighter shade of background. Also add a red dot banner with (number of unread messages) like: ( 1 ) or ( 4 ) to replace the text of time like the "12:23AM" we have now

remove chat contacts, Back button should go back to Contact list :

In the Chat contact list, when we tap settings icon. We can delete contacts.

Now: In Chat contact page If we tap the settings icon, then "back", we will return to home or girls page

I want: In Chat contact page If we tap the settings icon, then "back", we will return to contact page, i.e. cancels the edit contacts function.

**Add extra "cancel" icon before "bin" icon**

At the individual chat page (user and escort chatting) each New Chat Messages is transitioned-in by animation:

Use the animate\_\_bounceIn animation (<https://animate.style/>) for displaying received messages and displaying sent messages

Chat while typing need to push all previous msgs to the top:

In the chat screen When chatting, sometimes many chat messages fills up the entire chat screen.

Now: In this case, when we type, due to the phones keyboard we can't see the last messages.

I want: When we start typing, the message bubbles are all pushed up, so that the last chat bubbles could be shown.

### **1.5 seconds each**

HTML Title Flash "NEW Message(s)" with "Fuckadvisor: Pleasure, Anywhere!" once message is read "NEW Message(s)" is gone, only "Fuckadvisor: Pleasure, Anywhere!"

If the user, or escort or manager have an unread message. the HTML Tab should flash and alternate the "NEW Message(s)" in Bold then in italics font. alternating and looping between Bold and Italics having the "flashing" effect. If all unread messages are read, the flashing "NEW Message(s)" is gone, and only "Fuckadvisor: Pleasure, Anywhere!" is shown

Individual escorts page: You may like: save button please change from "Star" to "heart animation"

In the Guides tab, there is a chart of min median and highest price chart. Round the dollars to integers, no decimals

When the manage tab is pressed, we enter the manage chat screen.

The girl with unread message will move to the top of the list. Tapping on the girls tab will go to the last unread message
